ABOUT ME

I am a **Bachelor degree holder in Information Technology** from the **Institute of Accountancy Arusha**. I'm deeply inspired by emerging technology trends and passionate about their responsible and impactful use. With strong backend development skills, I strive to apply my technical expertise to promote digital literacy and drive responsible digital transformation among youths and the wider community

SKILLS

- Project Lead & Management skills
- Computing Skills
- Digital Facilitation & Coaching
- Web Development
- Critical Thinking & Problem Solving
- Leadership & Mobilization

LANGUAGE

- English
- Kiswahili

EDUCATION BACKGROUN

YEAR	EDUCATION LEVEL	INSTITUTION
2023 -	Bachelor Degree in Information Technology	Institute of Accountancy Arusha
2021 - 2023	Advanced Certificate of Secondary Education - HGL	Bihawana Secondary School
2017 - 2020	Certificate of Secondary Education	Kwauso Seconadry School

EXPERIENCE

Academic Results Processing System

Developed my first major project, the **Academic Results Processing System**, designed for secondary schools to simplify academic management. It features automated grading, dynamic report generation, and streamlined communication between teachers, students, and parents creating a more transparent and efficient academic process.

Aspirational Digital Empowerment Program

As Co-Founder and Project Lead of the **Aspirational Digital Empowerment Program (ADEP)**, I lead an initiatives that integrate ICT in education, promoting digital literacy and responsible technology use among students and teachers. Through ADEP, I've helped design and implement digital tools, training programs, and school innovation hubs that empower youth to engage with technology creatively and responsibly.
www.adep.co.tz

I am currently working on IkonCloud, a cloud-based school management and SaaS platform, focused on digital transformation in education through efficient data management, automation, and scalable digital infrastructure.
